

# Unbeatable Efficiency, Engineering, & Flexibility

Great aluminum castings begin with furnaces from The Schaefer Group.

- Aluminum Melting & Holding Furnaces – continuous degassing/filtrations
- Reverberatory Furnaces – efficient radiant heat
- Low Energy Holding Furnaces – electric, gas, immersion
- Electric Resistance Furnaces – highest efficiency of any furnace at 67%!
- Transfer Ladles – 300–6,500 lb
- Ladle Heaters – NFPA regulated fuel train

## The Schaefer Group

They Are the Best Furnaces You Can Get.
